Volume 72 (1990)

REVIEW ARTICLE

Chloroplast ribosomal proteins and their genes
by R. Mache (Grenoble, France) ..... 1—12

PHYSIOLOGY AND BIOCHEMISTRY

Restriction fragment length polymorphism analysis of DNA from senescing cotyledon tissue
by F.B. Abeles and L.J. Dunn (Kearneysville, WV) ..... 13—17

Purification and properties of a catalase from potato tubers (*Solanum tuberosum*)
by F. Beaumont, H.-M. Jouve, J. Gagnon, J. Gaillard and J. Pelmont (Grenoble, France) ..... 19—26

Characterization of a monomeric phosphofructokinase from banana — role of magnesium on its regulation
by K.K. Surendranathan, M.G. Iyer and P.M. Nair (Bombay, India) ..... 27—35

α-Amylase activities of agricultural insect pests are specifically affected by different inhibitor preparations from wheat and barley endosperms
by C. Gutierrez, R. Sanchez-Monge, L. Gomez, M. Ruiz-Tapiador, P. Castañera and G. Salcedo (Madrid, Spain) ..... 37—44

Changes during epicotyl growth of an autolysis-related β-galactosidase from the cell wall of *Cicer arietinum*
by B. Dopico, G. Nicolás and E. Labrador (Salamanca, Spain) ..... 45—51

GENETICS AND MOLECULAR BIOLOGY

Gene amplification in glyphosate tolerant tobacco cells
by P.B. Goldsbrough, E.M. Hatch, B. Huang, W.G. Kosinski, W.E. Dyer, K.M. Herrmann and S.C. Weller (West Lafayette, IN) ..... 53—62

Apparent expression of small single copy cpDNA region in senescent chloroplasts
by A. Vera, R. Tomás, M. Martín and B. Sabater (Madrid, Spain) ..... 63—67

Inhibition of transgene expression in plant protoplasts by the presence in *cis* of an opposing 3′-promoter
by C.J.R. Paszty and P.F. Lurquin (Pullman, WA) ..... 69—79

Changes in a repetitive DNA sequence during callus culture of *Cucumis melo*
by J. Grisvard, M. Sevignac, M. Chateau and M. Branchard (Orsay, France) ..... 81—91

CELL AND TISSUE STUDIES IN VITRO

Alfalfa somatic embryo maturation and conversion to plants
by J.A.A. Fujii, D. Slade, R. Olsen, S.E. Ruzin and K. Redenbaugh (Davis, CA) ..... 93—100

Comparative studies of organogenesis and plant regeneration in various soybean explants
by Y.-S. Yang, K. Wada and Y. Futsuhara (Nagoya and Shizuoka, Japan) ..... 101—108

Interactions between calcium and auxin during pollen androgenesis in anther cultures of *Solanum carolinense* L.
by T.L. Reynolds (Charlotte, NC) ..... 109—114

Effect of culture densities on cell proliferation and regeneration from embryogenic cell suspensions of *Picea sitchensis*
by P. Krogstrup (Copenhagen, Denmark) ..... 115—123

Plant regeneration from suspension culture derived protoplasts of tall fescue (*Festuca arundinacea* Schreb.) of a single genotype
by T. Takamizo, K.-I. Suginobu and R. Ohsugi (Tochigi, Japan) ..... 125—131

GENERAL

Purification and characterization of a lectin from *Erythrina americana* by affinity chromatography
by M. Ortega, C. Sanchez, E. Chacon, J.L. Rendon, R. Estrada, F. Masso, L.F. Montaño and E. Zenteno (Cuernavaca and Mexico City, Mexico) ..... 133—140

Gene products encoded by cymbidium mosaic virus RNA: proteins translated in vitro
by W.L. Steinhart and M.A. Oshiro (Brunswick, ME) ..... 141—147

PHYSIOLOGY AND BIOCHEMISTRY

Validity of different binding assays for detection of soluble auxin-binding sites in plants
by S. Kaur and H.C. Kapoor (New Delhi, India) ..... 151—157

Glyoxisome-like microbodies in senescent spinach leaves
by R. Landolt and P. Matile (Zurich, Switzerland) ..... 159—163

Triterpenes and alkanes in developing variegated and albino leaves of *Ilex aquifolium* L. (Aquifoliaceae)
by H.H. Van Genderen and J. Jaarsma (Utrecht, The Netherlands) ..... 165—172

Purification and properties of the anionic form of α-galactosidase from germinating guar (*Cyamopsis tetragonolobus*)
by B.D. Shivanna, M. Ramakrishna and C.S Ramadoss (Mysore, India) ..... 173—180

The effects of Ca^{2+} and Mg^{2+} on accumulation and secretion of isoflavonoids by soybean roots
by C. Werner and H.R. Hohl (Zurich, Switzerland) ..... 181—191

Glycosidase activities and polysaccharide accumulation in sugar cane stalks during post-collection impairment
by M. Martinez, M.E. Legaz, M. Paneque, R. Domech, R. de Armas, I. Medina, C.W. Rodriquez and C. Vicente (Havana and Matanzas, Cuba; Madrid, Spain) ..... 193—198

Mechanism for the variations in electrophoretic mobility of glutamine synthetase from *Phaseolus vulgaris* root nodules
by X. Cai and P.P. Wong (Manhattan, KS) ..... 199—206

Hydrogen peroxide- and superoxide-dependent fatty acid breakdown in *Phytophthora infestans* zoospores
by M.N. Merzlyak, I.V. Reshetnikova, O.B. Chivkunova, D.G. Ivanova and N.I. Maximova (Moscow, U.S.S.R.) ..... 207—212

Chilling-resistance of photosynthetic performances in diuron-adapted *Euglena gracilis*
by D. Laval-Martin and D. Troton (Paris, France) ..... 213—222

GENETICS AND MOLECULAR BIOLOGY

Expression of genes encoding oleosin isoforms in the embryos of maturing maize kernels
by R. Qu, V.B. Vance and A.H.C. Huang (Columbia, SC) ..... 223—232

Transformation experiments by pipetting *Agrobacterium* into the spikelets of wheat (*Triticum aestivum* L.)
by D. Hess, K. Dressler and R. Nimmrichter (Stuttgart, F.R.G.) ..... 233—244

CELL AND TISSUE STUDIES IN VITRO

Transgenic plants of mustard *Brassica juncea* (L.) Czern and Coss
by H. Matthews, N. Bharathan, R.E. Litz, K.R. Narayanan, P.S. Rao and C.R. Bhatia (Homestead, FL; Bombay, India) ..... 245—252

Somatic embryogenesis from immature inflorescences of rye
by R. Linacero and A.M. Vazquez (Madrid, Spain) ..... 253—258

Fusion studies of pollen protoplasts and generative cell protoplasts in *Lilium longiflorum*
by K. Ueda, Y. Miyamoto and I. Tanaka (Yokohama, Japan) ..... 259—266

Plant regeneration from suspension culture-derived protoplasts of *Agrostis alba* L. (Redtop)
by Y. Asano and K. Sugiura (Tsukuba and Narashino, Japan) ..... 267—273

An in vitro study of organogenesis in guayule (*Parthenium argentatum* Gray)
by I.A. Trautmann and J.H. Visser (Stellenbosch, South Africa) ..... 275—281

GENERAL

Release of glucose by *Nostoc spec.* isolated from the lichen *Peltigera horizontalis*
by D. Meindl and E. Loos (Regensburg, F.R.G.) ..... 283—288

Subject Index Volume 72 ..... 289—292

Author Index Volume 72 293

Contents Volume 72 ..... 295—296
